Work **The Cigna Group**

Senior Engineering Advisor

May 2018 – Invalid Date

Focused on DevOps practices and data engineering, driving improvements in infrastructure and deployment processes.

- DevOps
- Python
- Databricks

Education **Quinnipiac University**

Computer Information Systems

Sep 2014 – May 2018

Bachelor of Science

Courses

- Econometrics
- Database Design
- SDLC
- Python

Projects **Microservice Modernization**

Mar 2025 – Present

- Code Optimization
- Refactoring
- Technical Debt Reduction
- Codebase Modernization
- Software Maintenance

Custom Terraform Provider

Jan 2025 – Apr 2025

- Automation
- GitHub Actions
- API Integration
- Resource Management
- Permissions Management
- Data Product Development

Terraform CDK Conversion

Mar 2024 – Jan 2025

- Terraform Migration
- Cloud Infrastructure
- Databricks Jobs
- Continuous Integration (CI)
- Modular Design
- Abstraction
- Type Hinting

GitHub Action Automation

Mar 2024 – Mar 2025

- GitHub Actions
- Workflow Automation
- Process Improvement
- Efficiency Optimization
- AI-Driven Development
- Pull Request Automation
- ServiceNow Integration
- Compliance Workflows
- DevOps Tools

PySpark File Ingestion

Mar 2022 – Mar 2025

- PySpark
- ETL (Extract, Transform, Load)
- Databricks
- Data Processing
- File Ingestion
- Cloud Storage (S3)
- Data Transformation
- Data Organization
- File Management

CloudBees Jenkins Optimization

Mar 2022 – Present

- Jenkins
- CloudBees
- Python Development
- Script Conversion
- Testability
- Resource Optimization
- Horizontal Scalability
- Pipeline Efficiency

Microservice Development and DevOps

Jan 2018 – Jun 2021

- API Development
- CI/CD (Continuous Integration/Continuous Deployment)
- Blue-Green Deployments
- Role-Based Access Control (RBAC)
- Deployment Automation

Skills

Cloud

AWS CDKTF Terraform
